

About Airworthy Aerospace

Airworthy Aerospace was established in 2000 with a vision of offering airlines excellent service and quick turn times at a competitive price. We are a solution provider on interior components for the airline. We established this company on the principle of serving airlines with exceptional service and delivering products developed with superior knowledge, craftsmanship and integrity.

Since its inception, Airworthy Aerospace has advanced in its capabilities, technologies, and locations. At the onset, Airworthy's capabilities numbered under sixty-five. Today, our capabilities exceed several thousands. As our capabilities grew, so did our domestic and international locations. We have locations in Hudson, Wisconsin; Detroit, Michigan; Los Angeles, California; Atlanta, Georgia; Minneapolis, Minnesota; Deerfield Beach, Florida and Southeast Asia.

With each new endeavor that Airworthy takes on, be it a new component or the development of a new location, we match our progression as a company with improvements in our technologies. We are proud of our investments and technological advancements in highly automated machinery for our carpet, arm cap, aircraft seating and thermoforming divisions.

We currently offer the following capabilities:

- Aircraft Seating
- Aviation Carpet
- Thermoform Plastics
- Interior Monuments
- Galley Inserts

You have our pledge that at Airworthy™ **We manage the product line so you can manage the airline™** is much more than our tagline - it's our commitment to support your success.

Quality you Demand,
Timeliness you Require,
Service you Deserve...
Guaranteed
