

Custom Thermoform Plastics

Airworthy Aerospace's Thermoform Plastics division creates custom engineering solutions for the full range of aircraft thermoform plastics.

We specialize in producing **premier plastic components** fitted precisely to nearly all aircraft seating products, both by using your molds or designing and fabricating custom molds to meet the most challenging requirements. In addition, our experienced airline thermoform team expertly refurbishes, repairs and inspects parts produced by owner-operators and major manufacturers.

No matter the size or scope of your needs, you have our assurance of steadfast attention to detail, superior workmanship and swift turn-around times, backed by our **Airworthy guarantee.**

Quality you Demand,
Timeliness you Require,
Service you Deserve...
Guaranteed
